

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) (Continued)

In the Statement of Net Position and the Statement of Activities, we divide the City into three kinds of activities:

- *Governmental activities* – Most of the City's basic services are reported here, including the police, fire, public works and parks departments, and general administration. Property taxes, charges for services and state sources fund most of these activities.
- *Business-type activities* – The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's water and sewer system and marina activities are reported here.
- *Component units* – The City includes three separate legal entities in its report – the Downtown Development Authority, the Landfill Authority, and the Munising Housing Commission. Although legally separate, these "component units" are important because the City is financially accountable for them.

Reporting the City's Most Significant Funds

Our analysis of the City's major funds begins on the pages below. The fund financial statements begin as listed in the table of contents and provide detailed information on the most significant funds – not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, the City Commission establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using taxes, grants, and other money. The City's two kinds of funds - *governmental* and *proprietary* - use different accounting approaches.

- *Governmental Funds* – Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can be readily converted into cash. The governmental fund statements provide a detailed *short-term view* of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and Statement of Activities) and governmental *funds* in a reconciliation which follows the fund financial statements.
- *Proprietary Funds* – When the City charges customers for the services it provides – whether to outside customers or to other units of the City – these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds (a component of proprietary funds) are the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary funds. We use internal service funds (the other component of proprietary funds) to report activities that provide supplies and services for the City's other programs and activities – such as the Motor Pool Fund and Municipal Building Authority Fund.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has one item that qualifies for reporting in this category.

The government reports deferred inflows of resources for change in expected and actual investment returns, assumptions, and benefits provided in its pension plan.

Property Taxes

Property taxes attach as an enforceable lien on property as of July 1. Taxes are levied not later than July 1 and are payable by August 20 without penalty.

The City bills and collects its own property taxes and also the taxes for the local school district, the intermediate school district, and the county. Collections of local school taxes, intermediate school district taxes, and county taxes and remittance of them are accounted for in the Trust and Agency Fund. City property tax revenues are recognized when levied to the extent that they result in current receivables.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the City of Munising because it is at present considered not necessary to assure effective budgetary control or to facilitate effective cash planning and control.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and affect the disclosure of contingent assets and liabilities at the date of financial statements. These estimates and assumptions also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through December 26, 2018, the date of the accompanying independent auditor's report, which is the date the financial statements were available to be issued.

NOTE B – INDIVIDUAL COMPONENT UNIT DISCLOSURES:

Discretely Presented Component Units

The component unit column in the Statement of Net Position includes the financial data for the Downtown Development Authority/TIF District, the Landfill Authority, and the Munising Housing Commission. They are reported in a separate column to emphasize that they are legally separate from the City. The purpose of the Downtown Development Authority/TIF entity is to foster development of the Downtown Business District. The purpose of the Landfill Authority is to control revenues and incur expenditures in connection with the Munising Landfill Closure. The purpose of the Munising Housing Commission is to provide low income housing programs to City residents.

NOTE B – INDIVIDUAL COMPONENT UNIT DISCLOSURES (Continued):

The presentation of the financial statements of the Downtown Development Authority/TIF district and the Landfill Authority are complete, and there is no separately issued report for these entities.

A complete financial statement for the Munising Housing Commission can be obtained directly from the Administrative Office at 200 City Park Drive OFC, Munising, Michigan, 49862.

In accordance with the provisions of GASB Statement 14, certain other governmental organizations are not considered to be part of the reporting entity for financial reporting purposes. The criteria established for determining the various governmental organizations to be included in the reporting entity's financial statements include oversight responsibility, scope of public service, and special financing relationships. On this basis, the financial statements of Munising Public Schools are not included in the financial statements of the City.

NOTE C – DEPOSITS AND INVESTMENTS:

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State law does not require and the City does not have a deposit policy for custodial credit risk. The carrying amount of the primary government, component units, and fiduciary funds deposits with financial institutions was \$5,523,863 and the bank balance was \$5,560,101. The bank balance is categorized as follows:

Amount insured by the FDIC or uncollateralized with securities held by the City in its name	\$524,593
Amount uninsured and collateralized with securities held by the pledging financial institutions trust department in the City's name	3,735,508
Amount uninsured and collateralized with securities held by the pledging financial institutions trust department not in the City's name	1,300,000

NOTE J – LONG-TERM PAYABLE TO DDA:

During fiscal year 2014, the DDA secured a bond in the amount of \$315,000 to be used to finance a portion of the City's Energy Project that is within the DDA's development area. The City's Capital Project's fund recorded \$315,000 in funds from the DDA. Upon completion of the project in fiscal year 2017 the amount owed to the DDA was split among the applicable funds affected by the Energy Improvement Project. As appropriate, an advance from the DDA is shown as a liability in the applicable funds. The amounts outstanding as of June 30, 2018 are as follows:

	Balance July 1, 2017	Additions	Reductions	Balance June 30, 2018	Due Within One Year
Governmental Activities:					
General Fund	\$67,200	\$-	(\$4,800)	\$62,400	\$4,800

Total	\$280,000	\$-	(\$20,000)	\$260,000	\$20,000

NOTE J – LONG-TERM PAYABLE TO DDA (Continued):

The advance to/from other funds will be reduced in conjunction with the DDA's principal payments on the debt. As of June 30, 2018, the amount recorded as an advance from to the DDA (the outstanding principal on the DDA's bonds) was \$260,000.

NOTE K – FUND BALANCES – GOVERNMENTAL FUNDS:

Fund balances of the governmental funds are classified as follows:

Non-spendable — amounts that cannot be spent either because they are in non-spendable form or because they are legally or contractually required to be maintained intact.

Restricted — amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed — amounts that can be used only for specific purposes determined by a formal action of the City Council. The City Council is the highest level of decision-making authority for the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the City Council.

Assigned — amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the City's adopted policy, only the City Manager or the City Council may assign amounts for specific purposes.

Unassigned — all other spendable amounts.

As of June 30, 2018, fund balances are composed of the following:

	General Fund	Major Special Revenue Funds	Capital Projects Funds	Other Governmental Funds	Total Governmental Funds
